

Instructional coaching is a promising practice emerging in high schools across the nation. We invite you to join our community of learning and practice and exchange ideas about instructional practices that help build professional learning communities designed for the practitioner by the practitioner.

Please access <http://www.pacoaching.org/> and share resources, PowerPoint presentations, Podcasts, Blogs, and a great video in an online community created for educators. Read about events in our monthly newsletters with contributions from educators in schools across the Commonwealth of Pennsylvania. Publicize best practices, ask questions, and offer suggestions about content and pedagogy to your peers.

Please understand that the opinions offered are just that... someone's opinion about a book, practice, article, or thought that may not be research based but rather based on experience. Share your learnings with your colleagues and touch the teaching soul of every individual who visits our site. [Top of Page](#)
